Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Group I, claims 1-13 and 19-20 in the reply filed on 7/16/07 is acknowledged.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

3. Claims 1-13 and 19-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Salzsieder et al. US 6,315,551.

Regarding claims 1 and 19, Salzsieder '551 discloses burners having particular gas feed ducts comprising four substantially cocentric ducts including an exterior and interior injection duct.

Salzsieder fails to disclose a humidifying agent.

It would have been obvious to one of ordinary skill to include a humidifying agent in the injection device of Salzsieder because Salzsieder discloses mixing and dispersion of gas and fuel is achieved (see abstract and Figures).

Regarding claims 2-5 and 8-13, Salzsieder discloses four substantially cocentric ducts including a duct for axial air and a duct for rotary air disposed outside any fuel outlet opening (abstract, Figures).

Regarding claims 6-7 and 20, Salzsieder discloses a central stabilizer at the outlet (abstract).

Response to Arguments

4. Applicant's arguments filed 12/12/07 have been fully considered but they are not persuasive.

It is argued that Applicant respectfully submits that modifying... to produce flame. This is not persuasive because Applicant does not claim "water" as the agent. It is noted that the features upon which applicant relies (i.e., water) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993). And, in any case, Salzsieder discloses axial air and a duct for rotary air, which would obviously, to one of ordinary skill, contain and allow for at least some humidity.

It is argued that by way of example... having a nozzle. This is not persuasive because Salzsieder discloses a said flame

stabilizer can be a plate whose outside shape is circular (see column 3, bottom).

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
